Where an individual investor provides personal data relating to third party individuals to a Recipient, that investor warrants that the prior consent of such third party individual, which will allow a Recipient to collect, use and disclose that personal data in the manner and for the purposes described above, has been obtained, and each investor consents to and acknowledges all such collection, use and disclosure on behalf of that third party individual. Each investor shall, upon request from any Recipient, promptly provide a copy of the document(s) containing or evidencing such prior consent obtained from such third party individual.

Each investor should note that a notice of withdrawal of consent submitted by a holder of the Fund, or by any third party individuals whose personal data the holder of the Fund has provided to the Recipients (e.g. the holder's beneficial owners, directors or authorised signatories, if the holder is not an individual), may be deemed to be a request for redemption of all Units held by such holder of the Fund.

Each investor undertakes to ensure that all information provided to the Recipient is true, accurate and complete and that changes to any such information shall be notified to the Recipient in a timely manner.

### **Foreign Account Tax Compliance**

Treasury Regulations adopted in the United States to implement FATCA and intergovernmental agreements entered into by the United States and many other countries to implement FATCA reporting and exchange of information in those countries (each, an "**IGA**") provide the means by which non-US financial institutions ("**FIs**") meet their obligations to report account information with respect to US Persons and certain non-US entities owned by US Persons. FIs that comply with the requirements of the FATCA or the IGA in effect in their home jurisdictions, as applicable, will avoid FATCA withholding taxes on relevant payments originating in the United States. Failure to comply with the FATCA or an applicable IGA can

result in withholding tax on payments, liability with respect to taxes that should have been withheld, and additional penalties under both United States law and the laws of the FI's home jurisdiction. Wilful failure to comply can result in criminal penalties.

Each investor acknowledges that it shall notify the Managers or their registered distributors immediately in writing if it is a US Person and if it has subscribed for or holds any Units on behalf of any US Person. Each investor shall further notify the Managers or their registered distributors not later than 30 calendar days of any change under FATCA or any laws or regulations that affects the investor's tax status or the tax status of any US Person on whose behalf the investor has subscribed for or holds any Units.

Each investor represents and warrants that it has provided or shall provide to the Managers or their registered distributors all documentation or other information required for compliance with FATCA and in connection with any change in tax status and shall otherwise provide all required documentation (including the completion of any FATCA related forms and documents) and other information not later than 7 calendar days of any request in writing by the Managers or their registered distributors.

Each investor acknowledges that in the event of any failure to provide accurate and timely information the Managers and their registered distributors have the right to deem the investor recalcitrant and/or reportable and shall be entitled to take all necessary action(s) against the investor to be compliant with requirements under FATCA, including but not limited to any local legislation enacted in connection with FATCA as the same may be modified, amended, supplemented, re-enacted or re-constituted from time to time. Each investor notes that the Managers may compulsorily realise all or any of its Units in any of the circumstances set out in Section 8.15 (Compulsory Realisation of Units) of this Prospectus.

Each investor consents to the collection, storage, and disclosure of any confidential information including personal data to persons to whom payments are made or from whom payments are received for the account of the investor and to governmental authorities as required by laws and regulations or other agreement by or between governments pursuant to FATCA. Each investor represents that it has secured from any third party whose information may be provided to the Managers and their registered distributors all necessary consents and/or waivers to permit the Managers and their registered distributors to carry out the actions required pursuant to FATCA, and that the investor shall secure such consents and waivers prior to furnishing such information to the Managers and their registered distributors.

Each investor acknowledges that the Managers and their registered distributors are entitled to take all necessary action determined by the Managers and the registered distributors to be and remain compliant with FATCA as is required by law or other agreement by or between governments. Each investor authorises the Managers and their registered distributors to withhold or otherwise deduct from any payment any required tax or other government assessment, including but not limited to any requirement to withhold or deduct an amount pursuant to FATCA.

The Managers and their registered distributors shall have the right to determine and carry out any action which they consider to be appropriate to meet any obligations or requirements, whether in Malaysia, Singapore or elsewhere, for the purpose of the prevention of tax evasion. Such actions may include, but shall not be limited to, investigating and intercepting payments into and out of investors' account(s) (particularly in the case of international transfer of funds), investigating the source of or intended recipient of funds, sharing information and documents with any tax or regulatory authorities and withholding income from investors' accounts and transferring it to such tax authorities. In the event of any doubt as to whether a payment in or out of an investor's account is lawful, the Managers and their registered distributors reserve the right to cease all dealings with the investor in relation to such account.

For the purposes of this section relating to foreign account tax compliance, the following words and expressions shall have the following meanings:

**"FATCA"** means sections 1471 through 1474 of the United States Internal Revenue Code and any regulations and other guidance issued in connection thereto or any other agreement entered into with or between authorities and governments arising out of or in connection with FATCA or the implementation thereof, as each may be modified, amended, supplemented, re-enacted or re-constituted from time to time.

**"US Person"** means a United States citizen or resident individual, a partnership or corporation organised in the United States or under the laws of the United States or any state of the United States, or a trust if (i) a court within the United States would have authority under applicable law to render orders or judgments concerning substantially all issues regarding administration of the trust, and (ii) one or more US Persons have the authority to control all substantial decisions of the trust, or an estate of a decedent that is a citizen or resident of the United States. This definition shall be interpreted in accordance with the United States Internal Revenue Code. Please note that persons who have lost their United States citizenship and who live outside the United States may nonetheless in some circumstances be treated as US Persons.

#### **Common Reporting Standard and Automatic Exchange of Information**

The Standard for Automatic Exchange of Financial Account Information in Tax Matters, also known as the Common Reporting Standard ("**CRS**") is a regime developed by the Organisation for Economic Cooperation and Development Standard ("**OECD**") to facilitate and standardise the process for exchange of financial account information of account holders, primarily for taxation purposes between numerous jurisdictions around the world. In Singapore, the Income Tax (International Tax Compliance Agreements) (Common Reporting Standard) Regulations 2016 ("**CRS Regulations**") require FIs such as the Fund to conduct due diligence (including the collection, review and retention of financial account information) and report financial account information relating to specified persons from jurisdictions with which Singapore has a "competent authority agreement" (including any "multilateral competent authority agreement") ("**CAA**") to the Inland Revenue Authority of Singapore ("**IRAS**"). Such information may subsequently be exchanged with Singapore's CAA

partners. Singapore may enter into further IGAs, or the relevant authorities may enact further legislation or impose further requirements, which will form part of the CRS.

Given the above, the Fund will be required to collect requisite information from/of its investors and their beneficial owners (in certain circumstances) and may be required to disclose this information and certain information relating to the investor's investment in the Fund to the IRAS. The IRAS will exchange the relevant information in accordance with the CRS Regulations with Singapore's CAA partners annually on an automatic basis. Each investor will be required to provide the Fund with information and/or documentation necessary for the Fund to comply with its CRS reporting requirements. Failure to provide the requested information and/or documentation could have adverse effects on the Fund and its other investors. There may also be penalties under the Singapore tax law.

By investing (or continuing to invest) in the Fund, investors shall be deemed to acknowledge that:

- (A) the Fund (or any person authorised by it such as the Trustee, the Managers and their approved distributors) may be required to disclose to IRAS certain confidential information in relation to the investors and its beneficial owners (in certain circumstances), including but not limited to their name, address, tax residency(ies), tax identification number (if any), social security number (if any) and certain information relating to the investor's investment;
- (B) the Fund (or any person authorised by it such as the Trustee, the Managers and their approved distributors) may require the investors to provide additional information and/or documentation which the Fund may be required to disclose to IRAS (as appropriate);
- (C) IRAS will automatically exchange such information received as outlined above with Singapore's CAA partners in accordance with the CRS Regulations;
- (D) the Fund (or any person authorised by it such as the Trustee, the Managers and their approved distributors) may be required to disclose to the IRAS certain confidential information if IRAS contact any of the aforesaid with further enquiries. The IRAS may disclose the information provided with Singapore's CAA partners and use such information for tax purposes;
- (E) in the event an investor does not provide the requested information and/or documentation, whether or not that actually leads to compliance failures by the Fund, or a risk of the Fund or its investors being subject to penalties under the relevant CRS regulations, the Fund (or any person authorised by it such as the Trustee, the Managers and their approved distributors) reserves the right to take any action and/or pursue all remedies at its disposal including, without limitation, rejection of any application for units, or compulsory redemption of the investor concerned;
- (F) no investor affected by any such action or remedy shall have any claim against the Fund (or any person authorised by the it such as the Trustee, the Managers and their approved distributors) for any form of damages or liability as a result of actions taken or remedies pursued by or on behalf of the Fund in order to comply with any of the IGA, FATCA Regulations, CRS Regulations or any relevant underlying legislation; and
- (G) any related tax, costs, interest, penalties and other losses and liabilities suffered by the Fund and the Managers and their registered distributors or any agent, delegate, employee, director, officer, manager, member or affiliate of any investor pursuant to CRS and/or FATCA, arising from the failure of the investor to provide the requested information to the Fund (whether or not such failure actually leads to compliance failures by the Fund and the Managers and their registered distributors, or a risk of the Fund and the Managers and their registered distributors or the investor being subject to withholding tax) shall be economically borne by every investor.

In case of cross-border mergers of FIs, the Managers or their registered distributors may be required to collect additional information from each investor to comply with the applicable laws or regulations. Please note that exchange of information to the tax authorities subsequent to merger may be different from the exchange of information pre-merger.

Each investor should consult their tax advisers on the possible tax and other consequences with respect to the implementation of CRS.

**Past performance of the Fund is not an indication of its future performance.**

**There are fees and charges involved and investors are advised to consider them before investing in the Fund.**

**Unit prices and distributions payable, if any, may go down as well as up.**

**For information concerning certain risk factors which should be considered by prospective investors, see risk factors commencing on page 7 of this Prospectus.**

#### **4. RISK FACTORS**

##### **4.1 GENERAL RISKS**

The general risks of investing in the Fund are as follows:

- (a) while the Managers believe that the Fund offers potential for capital appreciation, there is no assurance that this objective will be achieved. Prospective investors should read this Prospectus and discuss all risks with their financial and legal advisers before making an investment decision; and
- (b) prospective investors should be aware that the price of Units can go down as well as up and that past performance of the Fund is not necessarily a guide to the future performance of the Fund. Investors may not get back their original investment. Investment in the Fund is designed to produce returns over the long term and is not suitable for short term speculation.

##### **4.2 SPECIFIC RISKS**

The risks specific to investing in the Fund are as follows:

###### **(a) Market Risk**

The price of the securities comprised in the portfolio of the Fund and its Units, and the income from them, may be influenced by political and economic conditions, changes in interest rates, the earnings of the corporations whose securities are comprised in the portfolio, and the market’s perception of the securities.

###### **(b) Foreign Currency Risk**

The Managers do not actively hedge the foreign currency exposure of investments of the Fund or Classes and therefore, the Fund or Classes may be exposed to exchange rate risks.

As investments of the Fund may be denominated in foreign currencies, fluctuations of the exchange rates of foreign currencies against the base currency of the Fund may have an impact on the income of the Fund and

affect the value of the Units. Any changes in the exchange rate between the base currency and the currency of the asset may lead to a depreciation of the value of the Fund's assets as expressed in the base currency. In order to mitigate this risk, in the case of any non-S\$ investments, the Managers may diversify the investments across different currencies.

Classes may be denominated in currencies other than the base currency of the Fund and changes in the exchange rate between the base currency and the denominated currency of the Class may lead to a depreciation of the value of the investor's holding expressed in the base currency as compared with the investment made in the denominated currency.

(c) **Liquidity Risk**

The extent of market liquidity is dependent on the size and state of the markets and therefore affects the Fund's ability to acquire or dispose of assets at the price and time they so desire. Securities listed on the smaller emerging markets are generally less liquid in comparison to those listed on more developed markets and may therefore affect the Fund's ability to acquire or dispose of securities at the price and time desired. There may also be state regulations governing the outward remittance by foreign investors of their share of net profits and dividends and the repatriation of their investments in a foreign currency.

In addition, the Fund is not listed on any stock exchange and there is no ready secondary market for the Units in the Fund. Holders can only redeem their Units by completing a realisation request and forwarding the same to the Managers through their registered distributors. If there is a surge in realisations at any particular time, the Managers may impose a gate on realisations. If that happens, realisation of Units and/or the payment of realisation proceeds may be delayed. In addition, Holders may not realise their Units during any period when realisation is suspended.

(d) **Emerging Market Risk**

Investments in emerging markets securities are generally more volatile than those of developed countries, with the result that the Units may be subject to greater price volatility.

Some emerging markets do not have well-developed or consolidated bodies of securities laws and regulatory frameworks. There may be less public information on companies listed on such markets as compared to other stock markets. The auditing and financial reporting methods used in some emerging markets may differ from internationally recognised standards, and information on the accounts of some companies listed on such markets may not be an accurate reflection of their financial strength.

Every investor would also have to take into account that trading volume in emerging markets may be substantially less than in the world's leading stock markets and trading may have to be conducted at unfavourable prices. Securities of companies domiciled in emerging markets are less liquid and more volatile than those domiciled in more developed stock markets and this may result in fluctuations in the price of the Units. Emerging markets may not have fully developed custodian and settlement services and therefore investments in such markets are subject to a greater degree of risk.

There may also be state regulations governing the outward remittance by foreign investors of their share of net profits and dividends and the repatriation of their investments in a foreign currency.

(e) **Equity Risk**

The Fund may invest in stocks and other equity securities, which are subject to market risks and are in general more volatile than investment-grade fixed income securities. Units in the Fund investing in equities may therefore be subject to greater price volatility.

(f) **Country Specific Risk**

The Fund may invest in securities of a limited number of countries. Where the Fund invests in a few, selected countries, it will be exposed to fluctuations in the economies of these countries, and the market, currency, political, social environment and other risks related specifically to these countries, which may affect the market price of its investments in these countries. Exposure to a limited number of countries also increases the potential volatility of the Fund due to the increased concentration risk as they are less diversified compared to exposure to specific regional or global markets.

(g) **Interest Rate Risk and Credit Risk**

Investments in debt securities are subject to interest rate fluctuations and credit risks, such as risk of default by the issuer, and are subject to adverse changes in general economic conditions, the financial condition of the issuer, or both, or an unanticipated rise in interest rates, which may impair the issuer's ability to make payments of interest and principal, resulting in a possible default by the issuer.

(h) **Income Distribution**

Investors should note that income of the Fund (if any) may be distributed to Holders at the absolute discretion of the Managers. Sources of income for distribution may include dividends and/or interest income and/or capital gains derived from the investments of the Fund. Such dividends and/or interest income may be adversely affected by events such as but not limited to companies suffering unexpected losses, having lower than expected dividends and adverse exchange rate fluctuations. In addition to distributions to Holders out of distributable income and/or capital gains, the Managers may at their discretion, with the consent of the Trustee, make capital distributions to Holders at such time as they deem fit in accordance with the provisions of the

Deed. The Fund may make distribution out of capital if there is insufficient realised gains or realised income. The Managers will decide whether a distribution is to be made based on various factors, including dividend and/or interest income and/or capital gains derived from the underlying investments of the Fund. In the event that income and dividends generated from the underlying investments of the Fund are insufficient to fund a distribution for the Fund, the Managers may in their discretion, with the consent of the Trustee, determine that such distributions should be paid from the capital of the Fund. Where distributions are paid out of capital of the Fund or Class, the NAV of the Fund or Class will be reduced and this will be reflected in the Realisation Price of the Units of the Fund or Class. Holders redeeming their Units may therefore receive an amount less than their initial investment. Such distributions may also result in reduced future returns to Holders.

**Where distribution is made out of capital, capital will be eroded, the distribution is achieved by forgoing the potential for future capital growth and this cycle may continue until all capital is depleted.**

(i) **Risk Associated with the Investment Strategy of the Fund**

The ability of the Managers to make any distribution payout is largely dependent on the successful execution of the investment strategy of the Fund. The distributions are particularly sensitive to the dividend yield and capital gains/losses from the Fund's investments in equities.

(j) **Usage of Financial Derivative Instruments**

While the prudent and judicious use of derivatives by investment professionals can be beneficial, derivatives involve risks different from, and in some cases, greater than, the risks presented by more traditional investments. Some of the risks associated with derivatives are market risk, management risk, credit risk, liquidity risk, moratorium risk, capital control risk, tax risk and leverage risk. The Managers have the necessary expertise and controls for investments in derivatives and have in place systems to monitor the derivative positions for the Fund, if any.

The viability of exercising derivative instruments depends on the market price of the investments to which they relate, and accordingly, the Managers may from time to time decide that it is not viable to exercise certain derivatives held by the Fund within the prescribed period, in which case, any costs incurred in obtaining the derivatives will not be recoverable. Additionally, the market price of the relevant investment may not exceed the exercise price attached to the derivative instrument at any time during the exercise period or at the time at which the warrants or options are exercised and in such an event, this may result in an immediate loss to the Fund.

It is possible that the Fund's NAV may be subject to volatility due to the Fund's usage of financial derivative instruments.

**The above should not be considered to be an exhaustive list of the risks which potential investors should consider before investing in the Fund. Potential investors should be aware that an investment in the Fund may be exposed to other risks of an exceptional nature from time to time.**

## 5. FUND DETAILS

### 5.1 INVESTMENT OBJECTIVE

The investment objective of the Fund is to achieve medium to long term capital appreciation for the investors.

***Any material change to the Fund's investment objective requires Holders' approval.***

### 5.2 INVESTMENT POLICY

The Fund will invest primarily in equities listed on the Singapore Exchange Securities Trading Limited that offer attractive and sustainable dividend payments. In addition, the Fund may also invest in equities listed outside of Singapore offering attractive and sustainable dividend payments. The Fund will invest more than 55% of its assets in shares of corporations (the effect of which would be that investments by the Fund in other equities such as real estate investment trusts, business trusts, exchange traded funds and CIS which are in the nature of equities would be limited by having to meet the more than 55% requirement). The Fund is only suitable for investors who seek medium to long-term capital appreciation by investing primarily in equity securities listed in Singapore and who are willing and able to accept that their principal will be at risk and that the value of their investment and any derived income may fall as well as rise.

The Managers manage the portfolio by selecting Singapore listed equities which offer attractive and sustainable dividend payments with the potential for long term capital appreciation. The Managers may also invest in non-Straits Times Index component stocks as well as stocks listed outside of Singapore with these characteristics. All the stocks are selected on the basis of a mixture of top-down and bottom-up analysis.

#### **Usage of financial derivative instruments**

The Managers may in their absolute discretion, invest in financial derivative instruments including, but not limited to, options on securities, forward contracts, OTC options, interest rate swaps and swaptions, index futures and options, futures or options of any kind of financial instrument or structured notes such as credit-linked notes, equity-linked notes and index-linked notes for the purposes of hedging and/or efficient portfolio management. The Managers may make use of financial derivatives instruments as allowed in the Code, MAS Notice, SFR(CMP) and in Part II of the Standards of Qualifying CIS. The Managers may invest in financial derivative instruments for the

purposes of hedging existing positions in a portfolio, where there is a strong correlation to the underlying investments or tactical asset allocation or efficient portfolio management. Financial derivative instruments shall not be used to gear the overall portfolio.

Where financial derivative instruments are used, the global exposure of the Fund to financial derivatives instruments or embedded financial derivatives instruments will not exceed 20% of the NAV of the Fund at all times. Such exposure would be calculated using the Commitment Approach as described in Appendix 1 – Investment: Core Requirements of the Code and in the Appendix to the Standards of Qualifying CIS.

The Managers will ensure that the risk management and compliance procedures and controls adopted are adequate and have been or will be implemented and that they have the necessary expertise to control and manage the risks relating to the use of financial derivatives instruments.

### **5.3 INVESTMENT STRATEGY**

The Managers believe that an active management of the portfolio is the best way to achieve long-term capital growth. Asian markets are inefficient and individual stocks can go through periods of mis-pricing, and a robust investment process is able to take advantage of these inefficiencies. By monitoring trends and price actions, the Managers remain alert to opportunities that are not easily identifiable through screening techniques alone. Through open forum and constant dialogue between portfolio managers and analysts, knowledge and market intelligence are shared, hence enabling the Managers to develop a greater understanding of future opportunities and risks. In addition, idea generation also comes through country and company visits, general reading, independent research and sell-side research (i.e. research provided by the Managers' or third party brokers).

The portfolio allocation of the Fund is driven primarily by bottom-up fundamental analysis of stocks. The portfolio strategy that is adopted for the Fund focuses on higher dividend paying sectors where cash flows are also more resilient, and selected lower dividend yielding stocks with prospects of growing its dividends to achieve an element of capital growth in addition to dividend yield on a total return basis. Stock selection also continues to focus on stocks with sustainable dividend payouts, resilient business models and proven management. In addition, the Fund continues to be able to selectively invest outside of Singapore, in stocks which meet stringent criteria. The Managers apply the same stringent criteria when investing in stocks in or outside Singapore. Stock selection is focused on stocks with sustainable dividend payouts, resilient business models and proven management, based on the bottom-up fundamental analysis of the stocks. If the Managers identify such an opportunity overseas, then the Fund may invest in such stock.

On a portfolio level, the Managers believe that by sticking to a bottom-up selection criteria, the Fund would be buying companies that have resilient businesses and stronger balance sheets to withstand volatility. This will ultimately protect the downside over the medium term. In the very short term, the portfolio's NAV would be subjected to market volatility. The Managers seek to minimise such volatility by using risk analytical tools to monitor portfolio volatility and in seeking a better understanding through decomposing the sources of such volatility.

Although the Fund is actively managed, how active its trading will be or the frequency of its trading will depend on market opportunities. The Managers frequency of trading is a function of idea generation and the Managers' investment process. There is no strict policy on the frequency of trading of securities, and the Managers do not restrict the portfolio with such policy. However, the Managers' active trading turnover, as with most of its strategies, ranges between 50% and 100%.

### **5.4 DISTRIBUTION POLICY**

The Managers have the absolute discretion to determine whether a distribution should be made in respect of the Fund. Any such distribution will be made in accordance with the relevant provisions of the Deed.

The Managers will decide whether a distribution is to be made based on various factors, including dividend and/or interest income and/or capital gains derived from the underlying investments of the Fund. In the event that income and dividends generated from the underlying investments of the Fund are insufficient to fund a distribution for the Fund, the Managers may in their discretion, with the consent of the Trustee, determine that such distributions should be paid from the capital of the Fund. Income distributions for Units offered in Malaysia will be made in the form of reinvestment in the purchase of additional Units in the Fund or cash. The currency of payment and currency of receipt of the cash, if applicable, will depend on regulatory and other requirements. The form of distribution in Malaysia will be determined by the Managers in their absolute discretion.

Currently, in respect of the RM Class Units, the SGD Class Units and the USD Class Units of the Fund, the Managers intend to make monthly distributions of between 5% to 7% per annum of the NAV per Unit. Investors should note that the intention of the Managers to make monthly distributions is not guaranteed and that the Managers may review the distribution policy of each of the RM Class, the SGD Class and the USD Class of the Fund in future depending on prevailing market conditions.

In respect of the RM (Acc) Class Units, the SGD (Acc) Class Units and the USD (Acc) Class Units, no distributions will be made for these Classes.

### **5.5 PERFORMANCE BENCHMARK**

Prior to 1 November 2017, the benchmark used by the Managers in measuring the performance of the Fund was the Straits Times Index ("STI"). With effect from 1 November 2017, the benchmark of the Fund has been removed and there is no longer any benchmark for this Fund. This is because pursuant to the investment objective of this

Fund, this Fund is managed on a total return basis and as such, it does not seek to outperform any benchmark. Investors and Holders may, in the absence of a performance benchmark, choose to refer to the STI, considering the Fund's investment strategy of investing primarily in equity securities listed in Singapore and the STI being an index based on the top 30 companies listed on the Singapore stock exchange. Information on the STI is publicly available at <https://www.sgx.com>.

Until 30 June 2001, the DBS 50 Index was used as the benchmark of the Fund instead of the STI and the switch was made due to the discontinuation of the DBS 50 Index.

### **8.5 PAYMENT OF REALISATION PROCEEDS**

Payment will be made within 7 Singapore Business Days after the relevant Dealing Day on which the realisation request is received subject to the provisions of the Deed.

### **8.6 COOLING-OFF**

A New Investor will have the right to cancel his subscription of Units within 7 calendar days of the date on which he signed the subscription agreement or such other longer period as may be agreed between the Managers and the Trustee or as the MAS may prescribe (the "Cancellation Period") by sending a cancellation request to the Managers through the registered distributor(s) from whom he purchased his Units by post or by hand. A cancellation request form is included with the application form for the subscription of Units, or may be obtained from the

registered distributors. Where the last day of the Cancellation Period falls on a Sunday or a Singapore public holiday, the Cancellation Period is deemed to be extended to the next calendar day, not being a Sunday or Singapore public holiday.

Other than for RM (Acc) Class Units, SGD (Acc) Class Units and USD (Acc) Class Units during the initial offer period as mentioned above, a cancellation request (to cancel subscriptions for Units) received by the Managers through their registered distributors on or before 5.00 p.m. Singapore time on a Dealing Day will be deemed to have been received on that Dealing Day. A cancellation request received by the Managers through their registered distributors after 5.00 p.m. Singapore time on a Dealing Day, or on a day which is not a Dealing Day, will be deemed to have been received on the next Dealing Day.

The Managers will pay the proceeds arising from the cancellation of a subscription of Units under this Section 8.6 within 7 Singapore Business Days unless the determination of the amount of such proceeds has been suspended in accordance with the provisions of the Deed. In such event, the payment of cancellation proceeds will be deferred until after the end of the suspension.

The cancellation proceeds payable for the cancellation of a subscription for Units will be determined as the lower of:

- (a) the Market Value; or
- (b) the Original Subscription Amount,

or calculated according to such other method of calculation as the MAS may prescribe pursuant to the Notice on Cancellation Period.

Any excess in the Market Value over the Original Subscription Amount, or in the Original Subscription Amount over the Market Value (as the case may be), will be retained by the Fund. The Managers are also entitled to deduct from the cancellation proceeds any administrative expenses incurred in cancelling the subscription so long as such expenses are reasonably related to the original purchase and subsequent cancellation of the New Investor's Units or such other reductions as the MAS may prescribe or permit pursuant to the Notice on Cancellation Period. A New Investor is only entitled to receive his cancellation proceeds arising from the cancellation of his subscription of Units in the same currency as that in which such Units are denominated. Any Initial Sales Charge paid by the investor will be refunded to him. However, he will have to take the risk for any price changes in the NAV of the Fund or the relevant Class since he purchased the Units.

In the case where a New Investor has more than one subscription and chooses to cancel one or more (but not all) of his subscriptions which he has a right to cancel, the cancellation of the New Investor's subscription or subscriptions must not result in the New Investor holding fewer Units than the Minimum Holding.

Any distributions declared during the Cancellation Period but not paid to the New Investor who has cancelled his subscription for Units will be paid to the New Investor in accordance with the provisions of the Deed.

During the Cancellation Period, a New Investor may choose to realise his Units instead of exercising his right to cancel his subscription of Units, in which case the procedures for realisation of Units stated in this Prospectus will apply. Investors should further note that:

- (a) a New Investor will not be able to enjoy the benefits of a cancellation under this Section 8.6 in the event that he chooses to realise his Units (i.e. no refund of the Initial Sales Charge will be given for the realisation and levy of Realisation Charge is allowed) and the realisation proceeds may be lower than the cancellation proceeds if the appreciation in the value of the Units is less than the Initial Sales Charge; and
- (b) the published price of the Units are indicative in nature and can change during the period between the submission and processing of the realisation request.

Conversion of Units offered in Malaysia to units in other Sub-Funds, is not permitted.

## **8.9 SUSPENSION OF DEALINGS**

Subject to the provisions of the Code and the Standards of Qualifying CIS, the Managers may suspend the cancellation of subscription for, issue and/or realisation of Units of the Fund or any Class of the Fund when:

- (a) dealings in a material portion of the assets of the Fund are restricted or suspended, provided that the Trustee is consulted;
- (b) it is not in the best interests of the Holders of the Fund to liquidate a material portion of the assets of the Fund, provided that the Trustee's approval is obtained;
- (c) the market value or fair value of a material portion of the assets of the Fund cannot be determined, provided that the Trustee's approval is obtained;
- (d) instructed by the MAS in the interest of protecting the rights of Holders of the Fund; or
- (e) such circumstances as may be required under the provisions of the Code and the Standards of Qualifying CIS.

The Managers may, with the approval of the Trustee, limit the total number of Units of the Fund or Class which Holders may realise and which the Managers are entitled to have cancelled pursuant to Clause 11 of the Deed on any Dealing Day to 10% of the total number of Units of the Fund or Class then in issue (disregarding any Units in such Fund or Class which have been agreed to be issued), such limitation to be applied pro rata to all Holders of the Fund or Class who have validly requested realisations on such Dealing Day including the Managers where applicable, so that the proportion so requested to be realised or cancelled pursuant to Clause 11 of the Deed is the same for all Holders and the Managers. Any Units which, by virtue of the powers conferred on the Managers by Clause 12(l) of the Deed, are not realised or cancelled (as the case may be) shall be realised or cancelled (subject to any further application of Clause 12(l)) on the next succeeding Dealing Day Provided That if on such next succeeding Dealing Day, the total number of Units of the Fund or Class to be cancelled or realised (as the case may be), including those carried forward from any earlier Dealing Day, exceeds such limit, the Managers may further carry forward the requests for realisation or cancellation (as the case may be) until such time as the total number of Units of the Fund or Class to be realised or cancelled (as the case may be) on a Dealing Day falls within such limit. If realisation requests are carried forward as aforesaid, the Managers shall, within 7 calendar days, give notice to the Holders affected thereby that such Units in the Fund or Class have not been realised or cancelled and that (subject as aforesaid) they shall be realised or cancelled on the next succeeding Dealing Day.

If, immediately after any Singapore Business Day, the number of Units of the Fund or Class in issue including those agreed to be issued by the Managers, having regard to realisations and issues of the Fund or Class falling to be made by reference to that Singapore Business Day, would be less than such proportion (not exceeding 90%), as may be determined by the Managers from time to time, of the number of Units of the Fund or Class in issue including those agreed to be issued by the Managers on that Singapore Business Day, the Managers may, with a view to protecting the interests of all Holders of the Fund or Class and with the approval of the Trustee, elect that the Realisation Price in relation to all (but not some only) of the Units of the Fund or Class falling to be realised by reference to that Singapore Business Day shall, instead of being the price calculated as hereinbefore mentioned, be the price per Unit of the Fund or Class which, in the opinion of the Managers, reflects a fairer value for the Deposited Property attributable to the Fund or Class having taken into account the necessity of selling a material proportion of the investments at that time constituting part of the Deposited Property attributable to the Fund or Class; and the Managers may by giving notice to the Holders of Units of the Fund or Class affected thereby within 2 Singapore Business Days after the relevant day, suspend the realisation of those Units for such reasonable period as may be necessary to effect an orderly realisation of the Authorised Investments (provided that such suspension is subject to the provisions of the Code and the Standards of Qualifying CIS). For the purposes of this paragraph, the “fairer value” for the Deposited Property shall be determined by the Managers in consultation with a Stockbroker (as defined in the Deed) or an approved valuer and with the approval by the Trustee. The “material proportion” of the Authorised Investments means such proportion of the Authorised Investments which when sold will cause the reduction of the NAV of the Deposited Property attributable to the Fund or Class.

#### **8.10 MINIMUM FUND SIZE**

Under the provisions of the Deed, the Managers may terminate Amova Investment Funds in their absolute discretion by notice in writing if the aggregate Value of the Deposited Property of the Amova Investment Funds is less than S\$30,000,000.

#### **8.11 REGULAR SAVINGS PLAN**

Holders wishing to participate in this plan can do so by investing from as little as Ringgit Malaysia One Hundred (RM100) regularly. #### **8.13 UNCLAIMED MONEYS**

Any moneys payable to you which remains unclaimed after twelve (12) months from the date of payment shall be paid to a special account of the Fund (“**Unclaimed Moneys Account**”) and, subject to provisions of the Deed, the Trustee shall cause such sums which represent moneys remaining in the Unclaimed Moneys Account for five years after the date for payment of such moneys into the Unclaimed Moneys Account and interest, if any, earned thereon to be paid into Court after deducting all fees, costs and expenses incurred in relation to such payment into Court from such sum thereof provided that if the said moneys is insufficient to meet all such fees, costs and expenses, the Trustee shall be entitled to have recourse to the Fund Property.

#### **8.14 ANTI-MONEY LAUNDERING POLICIES AND PROCEDURES**

Pursuant to the Anti-Money Laundering, Anti-Terrorism Financing and Proceeds of Unlawful Activities Act 2001, it is the responsibility of the Managers to prevent the use of the Fund for money laundering and terrorism financing activities. To this end, the Managers have put in place anti-money laundering policies and procedures to combat

such activities. Among others, prior to the Managers establishing or conducting business relations, particularly when opening new accounts for clients and entering into a fiduciary transaction with a client, the Managers will conduct "Know Your Customer" procedures to identify and verify the client through documents such as identity card, passport, birth certificate, driver's licence, constituent documents or any other official documents, whether in the possession of a third party or otherwise. Such documents shall be filed and retained by the Managers in accordance with relevant laws.

The Managers will thereafter perform a Customer Due Diligence (CDD) to identify the risk profile of each customer and will conduct ongoing monitoring of each customer risk profile. Enhanced Customer Due Diligence (ECDD) is performed on customers deemed as high risk and senior management's approval is required before a business relationship or account is opened with such customers.

Where the Managers suspect that a particular transaction may not be genuine, a suspicious transactions form shall be completed and the matter will be discussed with senior management. If senior management ascertains there is a reasonable ground to suspect the transaction to be a money laundering or terrorism financing activity, a Suspicious Transaction Report will then be submitted to the Financial Intelligence and Enforcement Department of Bank Negara Malaysia.

#### **8.15 COMPULSORY REALISATION OF UNITS**

The Managers have the right (in consultation with the Trustee) to compulsorily realise any holdings of Units in the Fund held by:

- (a) any Holder:
  - (i) whose subscription for or holding of Units in the Fund, in the opinion of the Managers, is or may be in breach of any applicable law or regulation in any jurisdiction; or
  - (ii) where such realisation is, in the opinion of the Managers, necessary or desirable for the compliance by the Managers or the Fund with any applicable law or regulation in any jurisdiction (including any regulatory exemption conditions); or
- (b) any Holder whose holdings of Units in the Fund, in the opinion of the Managers:
  - (i) may cause the Fund to lose its authorised or registered status with any regulatory authority in any jurisdiction; or
  - (ii) may cause the offer of the Units of the Fund, the Fund, this Prospectus, the Deed, the Managers or the Trustee to become subject to any authorisation, recognition, approval or registration requirements under any law or regulation in any other jurisdiction; or
- (c) any Holder whose holdings of Units in the Fund, in the opinion of the Managers:
  - (i) may cause a detrimental effect on the tax status of the Fund in any jurisdiction or on the tax status of the Holders of the Fund; or
  - (ii) may result in the Fund or other Holders of the Fund suffering any other legal or pecuniary or administrative disadvantage which the Fund or the Holders might otherwise not have incurred or suffered; or
- (d) any Holder who fails any anti-money laundering, anti-terrorist financing or know-your-client checks, or where any information and/or documentary evidence requested by the Managers and/or the Trustee for the purposes of any anti-money laundering, anti-terrorist financing or know-your-client checks cannot be obtained from the Holder, or the Holder has failed to provide the same, in a timely manner; or
- (e) any Holder, where information (including but not limited to information regarding tax status, identity or residency), self-certifications or documents as may be requested by the Managers and/or the Trustee pursuant to any laws, regulations, guidelines, directives or contractual obligations with other jurisdictions' authorities (including, without limitation, the FATCA (as defined in the Important Information section of this Prospectus) and/or any Singapore laws, regulations, guidelines and directives implemented as part of any inter-governmental agreement entered into between the United States and Singapore in connection with the FATCA) cannot be obtained from the Holder, or the Holder has failed to provide the same, in a timely manner; or
- (f) any Holder who does not consent, or withdraws his consent, for the Managers or the Trustee to collect, use and/or disclose information or data relating to the Holder, where such information or data is necessary for, or reasonably required by, the Managers, the Trustee, their respective related corporations and/or other service providers to perform their respective services and/or duties to or in respect of (i) the Fund and/or (ii) the Holder in relation to his holdings of Units in the Fund.

If the Managers and/or the Trustee are required to account to any duly empowered fiscal authority of Singapore or elsewhere for any income or other taxes, charges or assessments whatsoever on the value of any Units in the Fund held by a Holder, the Managers (in consultation with the Trustee) shall be entitled to compulsorily realise such number of Units in the Fund held by that Holder as may be necessary to discharge the liability arising. The Managers and/or the Trustee (as the case may be) shall be entitled to apply the proceeds of such realisation in payment, reimbursement and/or set-off against the liability.

Any compulsory realisation under this Section 8.15 may be carried out by the Managers on any Dealing Day after giving prior written notice to the relevant Holder, and shall be carried out in accordance with, and at the Realisation Price determined under, the relevant provisions of the Deed.

The Managers, the Trustee and their respective delegates, agents or Associates (as defined in the Deed) shall not be liable for any loss (whether direct or consequential and including, without limitation, loss of profit or interest) or

damage suffered by any Holder or any party arising out of or caused in whole or in part by any actions which are taken by the Managers, the Trustee and/or any of their respective delegates, agents or Associates under this Section 8.15.

## 8.16 SWING PRICING

The Fund is single priced and the NAV of the Fund may fall as a result of, amongst others, the transaction costs (such as broker commissions, custody transaction costs, stamp duties or sales taxes) incurred in the purchase and/or sale of its Authorised Investments (as defined in the Deed) caused by subscriptions, realisations, switches and/or exchanges of Units in the Fund and the spread between the buying and selling prices of such Authorised Investments. This effect is known as “dilution”.

To protect the interest of Holders, the Managers shall, in consultation with the Trustee, have the discretion to apply a technique known as “dilution adjustment” or “swing pricing” (“**Swing Pricing**”) in certain circumstances which the Managers deem appropriate. Swing Pricing involves making upwards or downwards adjustments in the calculation of the NAV per Unit of the Fund or Class on a particular Dealing Day so that such transaction costs and dealing spreads in respect of the Authorised Investments are, as far as practicable, passed on to the investors who are subscribing, realising, switching and/or exchanging Units on that Dealing Day.

Typically, the NAV is adjusted if the net subscription or realisation (including switches and/or exchanges) on a particular Dealing Day reaches or exceeds a certain percentage (the “**Swing Threshold**”) of the size of the Fund as of such relevant Dealing Day. The NAV will swing upwards for a net subscription and downwards for a net realisation. In relation to the application of Swing Pricing to Classes of Units in the Fund, the NAV of each Class will be calculated separately but any adjustment will, in percentage terms, affect the NAV of each Class in an equal manner.

The need to apply Swing Pricing will depend upon various factors, including but not limited to (i) the amount of subscriptions and/or realisations (including switches and/or exchanges) of Units on that Dealing Day, (ii) the impact of any transaction costs incurred in the purchase and/or sale of Authorised Investments of the Fund, (iii) the spread between the buying and selling prices of Authorised Investments of the Fund and (iv) market conditions such as situations of financial turmoil provided that, any adjustments made by the Managers shall be (i) on a fair and equitable basis and with a view to protecting the interests of Holders and (ii) beneficial to the interests of Holders.

Please note that applying Swing Pricing when the Swing Threshold is reached or exceeded, aims to mitigate the effect of dilution but may not eliminate it entirely. Where the net subscription or realisation is below the Swing Threshold, no Swing Pricing will be applied and dilution will not be reduced.

The swing pricing policy for the Fund will be subject to regular review and may change from time to time. Accordingly, investors should note that the decision to apply Swing Pricing and the level of adjustment made to the NAV per Unit of the Fund in particular circumstances may not result in the same decision in similar circumstances arising in the future.

**Holders and potential investors into the Fund should also take note of the following:**

- (a) the Fund’s performance will be calculated based on the NAV of the Fund after the Swing Pricing adjustment has been applied and therefore the returns of the Fund may be influenced by the level of subscription and/or realisation activity;**
- (b) Swing Pricing could increase the variability of the returns of the Fund since the returns are calculated based on the adjusted NAV per Unit; and**
- (c) the fees and charges applicable to the Fund (including fees based on the NAV of the Fund) will be based on the NAV before the Swing Pricing adjustment is applied.**

In the usual course of business, to minimise the impact to the variability of the return of the Fund, the application of Swing Pricing will be triggered mechanically and on a consistent basis and applied only when the net transaction reaches or exceeds the Swing Threshold.

The Swing Threshold will be set with the objective of protecting the Holders’ interest while minimising impact to the variability of the Fund’s return by ensuring that the NAV per Unit is not adjusted where the dilution impact on the Fund is, in the opinion of the Managers, not significant, and may be varied by the Managers in their discretion.

The amount of adjustment at any future point in time may vary depending on inter alia market conditions, but will under normal circumstances not exceed 2% of the NAV per Unit of the Fund on the relevant Dealing Day (the “**Maximum Adjustment**”). The Managers reserve the right to apply an adjustment of an amount not exceeding the Maximum Adjustment on the relevant Dealing Day where they deem appropriate and have the discretion to vary the amount of adjustment up to the Maximum Adjustment, in consultation with the Trustee, from time to time without giving notice to the relevant Holders.

Subject to the Deed and the applicable laws and regulations, the Managers may, in exceptional circumstances (including but not limited to volatile market conditions, market turmoil and illiquidity in the market, extraordinary market circumstances or significant unexpected changes in general market conditions) and in consultation with the Trustee temporarily apply an adjustment beyond the Maximum Adjustment on the relevant Dealing Day if, in their opinion, it is in the best interest of investors to do so. In such cases, if so required by the MAS and/or the Trustee, the Managers shall give notice to the relevant investors as soon as practicable in such manner as the Managers and Trustee may agree.

Investors should read and understand the contents of this Prospectus, and if necessary, should consult their adviser(s) before making any investment decisions.

Investors are advised not to make payment in cash to any individual agent when purchasing Units of the Fund.

Unit prices and distributions payable, if any, may go down as well as up.

## 11.8 MANAGERS' DELEGATE

The Managers have appointed BNP Paribas, acting through its Singapore Branch to undertake the accounting and valuation functions for the Fund. Please refer to Section 13 (BNP Paribas) of this Prospectus for details on the corporate information and the roles and duties of the delegate.

The Managers have delegated certain transfer agency functions, in respect of the Fund, to BNP Paribas, acting through its Singapore Branch. The services are to be provided to the Fund pursuant to the terms of a transfer agency agreement between the Managers and BNP Paribas, acting through its Singapore Branch.

## 11.9 THE MANAGERS' DISCLOSURE ON RELATED PARTY TRANSACTIONS AND POSSIBLE CONFLICTS OF INTEREST

Save for the transaction disclosed below and in Section 12.7 (Related Party Transactions & Conflicts of Interest) of this Prospectus, as at LPD, the Managers are not aware of any existing and/or proposed related party transactions or conflicts of interest situations or other subsisting contracts of arrangements involving the Fund.

### 11.9.1 Related Party Transactions

Name of Party in the Transaction	Nature of Transaction	Name of Related Party	Nature of Relationship
The Managers	Provision of fund administration, transfer agency and valuation services by BNP Paribas, acting through its Singapore Branch to the Fund in the normal course of business at terms agreed between the parties and within the provisions of the Deed.	BNP Paribas Trust Services Singapore Limited	The Trustee, BNP Paribas Trust Services Singapore Limited, is wholly-owned by BNP Paribas
The Managers	Appointment of AHAM Asset Management Berhad as Malaysian representative and registered distributor	The Managers	The Managers' parent company, Amova Asset Management Co., Ltd, holds 20% in AHAM Asset Management Berhad

## **11.92 Conflicts of Interest**

The Managers are part of a financial group, and the Managers and their affiliates (together the “Parties”) provide the full suite of financial services to clients, and act simultaneously for a number and range of clients with various interests, requirements and positions.

The Managers may from time to time have to deal with competing or conflicting interests arising from other funds managed by the Managers. For example, the Managers may make a purchase or sale decision on behalf of some or all of the other funds managed by them without making the same decision on behalf of the Fund, as a decision whether or not to make the same investment or sale for the Fund depends on factors such as the cash availability and portfolio balance of the Fund. However, the Managers will use their reasonable endeavours at all times to act fairly and in the interests of the Fund. In particular, after taking into account the availability of cash and the relevant investment guidelines of the other funds managed by the Managers and the Fund, the Managers will endeavour to ensure that securities bought and sold will be allocated proportionally as far as possible among the other funds managed by the Managers and the Fund. The Managers may also transact on the Fund’s behalf with its affiliates. It is the Managers’ intention to deal with any conflicts of interests in a manner consistent with any applicable guidelines which may be issued from time to time by the IMAS.

The Managers are of the view that they are not in a position of conflict in managing their other funds as these funds and the Fund have different investment universes and investment restrictions. To the extent that there are overlapping investment objectives, the Managers will, as far as practicable, endeavour to have the same securities holdings for such overlapping areas with such securities allocated on a pro-rata basis among the funds. The Deed provides that the Trustee and the Managers shall conduct all transactions with or for the Fund on an arm’s length basis. Subject to the relevant investment guidelines of the Fund, the Fund may also invest in other funds managed by the Managers and/or its affiliates. In respect of voting rights where the Managers may face a conflict between their own interest and that of the Holders, the Managers shall cause such voting rights to be exercised in consultation with the Trustee.

The Parties are or may be involved in other financial, investment and professional activities (including but not limited to providing discretionary investment management or investment advisory services to other clients) which may on occasion cause conflicts of interest with the management of the Fund. Notwithstanding the Fund being managed by the Managers and the Parties managing other funds, the Parties will be free, in their absolute discretion, to make recommendations to others, or effect transactions on behalf of themselves or for others which may be the same as or different from those effected for the Fund, and to do so prior to, at the same time as, or after effecting such transactions. The Parties shall not be obliged to purchase, retain or sell for the Fund any security which the Parties may purchase, retain or sell on behalf of themselves or for others, or which the Parties may recommend to others to purchase, retain or sell. Furthermore, the Parties shall be free to purchase, sell, deal in or compete for the same financial instruments as the Fund or to take positions opposite to the positions of the Fund, on behalf of themselves or for others, or to recommend others to take positions opposite to the position of the Fund. Each of the Parties will ensure that the performance of their respective duties will not be impaired by any such involvement. In the event a conflict of interest does arise, the Parties will endeavour to ensure that it is resolved fairly and in the interest of the Holders.

The Managers may own, hold, dispose or otherwise deal with Units as though they were not a party to the Deed. In the event of any conflict of interest arising as a result of such dealing, the Managers, following consultation with the Trustee, will resolve such conflict in a just and equitable manner as they shall deem fit. Such dealings, where entered into, will be on an arm’s length basis.

Any measures taken by the Managers to minimise or deal with conflicts of interest in respect of the Fund will also be subject to the provisions of the Standards of Qualifying CIS.

### **11.10 POLICY ON DEALING WITH CONFLICTS OF INTEREST**

The Managers have in place policies and procedures to deal with any conflict of interest situations. In making an investment transaction for the Fund, the Managers will not make improper use of its position in managing the Fund to gain, directly or indirectly, any advantage or cause detriment to the interests of Holders. Where directors’ interests may conflict with that of the Fund, they are to refrain from participating in the decision-making process relating to the matter. Staff of the Managers are required to seek prior approval before dealing in certain forms of securities. All transactions with related parties are to be executed on terms which are best available to the Fund and which are not less favourable to the Fund than an arms-length transaction between independent parties.

### **11.11 MATERIAL LITIGATION**

As at LPD, the Managers are not engaged in any material litigation and arbitration, including those pending or threatened, and are not aware of any facts likely to give rise to any proceedings which might materially affect the business/financial position of the Managers.

**AMOVA SINGAPORE DIVIDEND EQUITY FUND (A SUB-FUND OF AMOVA INVESTMENTS FUNDS)**

#### **TAXATION OF THE FUND AND UNIT-HOLDERS**

Dear Sirs,

This letter has been prepared for inclusion in the Malaysia Prospectus (the “Prospectus”) of Amova Singapore Dividend Equity Fund (the “Fund”). The purpose of this letter is to provide prospective unit holders (the “Holders”) with an overview of the impact of taxation on the Fund and the Holders.

Whilst PricewaterhouseCoopers Singapore Pte. Ltd. (“PwC”) understands that this summary will be made available to prospective investors and other parties, no duty of care or contractual relationship is established between PwC and any third party. Accordingly, PwC does not accept any liability to any person who relies on this summary. Prospective investors (particularly those subject to special tax rules such as banks, insurance companies and tax-exempt entities) should consult their own tax advisers regarding the tax consequences of the purchase, ownership and disposal / redemption of units of the Fund (“Units”) in light of their own particular circumstances.

It is emphasised that neither BNP Paribas Trust Services Singapore Limited (the “Trustee”) nor Amova Asset Management Asia Limited (the “Manager”) or any persons involved in the issuance of the Units accept responsibility for any tax effects or liabilities resulting from the acquisition, holding or disposal / redemption of the Units.

## **I. Singapore**

This summary of certain Singapore tax consequences of the purchase, ownership and disposal / redemption of the Units in the Fund is of a general nature only and is based on the current Singapore Income Tax Act 1947 (“ITA”) and the accompanying regulations<sup>1</sup> thereunder, the circulars issued by the Monetary Authority of Singapore (“MAS”) and practices in effect as at the date hereof and is subject to change at any time. It does not purport to be comprehensive and does not constitute legal or tax advice. PwC has no obligation to update the contents as laws and practices change unless specifically requested to do so. Holders and prospective investors should consult their own tax advisers concerning the tax consequences of their particular situations, including the tax consequences arising under the laws of any other tax jurisdiction, which may be applicable to their particular situations.

This summary is prepared on the basis that the Fund is relying on the Enhanced-Tier Fund Tax Incentive Scheme (“ETF Scheme”) on a standalone basis under section 13U of the ITA. PwC has not assessed if the ETF Scheme is the most appropriate tax concession available for the Fund nor have we assessed if the Fund is able to meet all the conditions under the ETF Scheme. It remains the responsibility of the Manager to (i) conduct the affairs of the Fund such that the Fund will qualify for the ETF Scheme or (ii) inform the Holders accordingly if the Fund cannot qualify for the ETF Scheme for any year of assessment (“YA”).

### **Taxation of the Fund and Holders in Singapore**

#### **1. Income tax**

Singapore income tax is imposed on income accruing in or derived from Singapore and on foreign-sourced income received in Singapore, subject to certain exceptions. Currently, the corporate income tax rate in Singapore is 17%.

#### **2. Gains on disposal of investments**

Subject to the operation of section 10L of the ITA relating to foreign assets (and the Multinational Enterprise (Minimum Tax) Act 2024 (the “MMT regime”)), Singapore tax is only imposed on income and not capital gains. Generally, gains on disposal of investments are considered income in nature and sourced in Singapore if they arise from or are otherwise connected with the activities of a trade or business carried on in Singapore.

The Fund may be construed to be carrying on activities of a trade or business in Singapore. Accordingly, the income derived by the Fund may be considered income accruing in or derived from Singapore and subject to Singapore income tax, unless the income is specifically exempted from tax. The Fund may rely on tax exemption under section 13U of the ITA, as discussed below.

#### **Section 10L**

---

<sup>1</sup> As at the date of this letter, the accompanying regulations refer to the Income Tax (Exemption of Income Arising from Funds Managed in Singapore by Fund Manager) Regulations 2010. References to section 13X in the abovementioned Regulations refer to section 13U of the ITA as the section has been renumbered in the Income Tax Act 1947.

Under section 10L of the ITA, gains from the sale of movable or immovable property situated outside Singapore (collectively “foreign assets”) received in Singapore by an entity<sup>2</sup> of a relevant group<sup>3</sup> will be treated as income chargeable to Singapore income tax, subject to certain exceptions (e.g. when the entity meets certain economic substance requirements). This section applies to gains from the sale or disposal of foreign assets that occurs on or after 1 January 2024 and where the gains would not otherwise be treated as income or if they are exempt from tax under the ITA.

In the MAS circular titled “Guidance for funds on the tax treatment of gains or losses from the sale of foreign assets” (Circular No.: FDD Cir 04/2024) dated 4 April 2024, the MAS has clarified that a fund that is approved and meets all the conditions of the tax incentive scheme under section 13U of the ITA, and submits its 13U annual declaration to the MAS confirming the same, will automatically be regarded as having met the economic substance requirement for that basis period.

### 3. The ETF Scheme

The Fund has been awarded the ETF Scheme status by the MAS under section 13U of the ITA with effect from 28 May 2015. The tax exemption status will be for the life of the Fund, provided the Fund continues to meet all conditions and terms set out below.

The Fund will have to ensure it:

- (i) is an investment vehicle (can be in any legal form) and will not be carrying out any active business operations other than the investment business;
- (ii) has a minimum fund size of S\$50 million of assets under management (“AUM”) at the point of application (Note 1);
- (iii) is managed or advised directly throughout each basis period relating to any year of assessment by a fund manager in Singapore, where the fund manager:
  - (a) must hold a capital markets services licence for the regulated activity of fund management under the Securities and Futures Act 2001 (“SFA”) or is exempt from the requirement to hold such a licence under the SFA; and
  - (b) must employ at least 3 investment professionals<sup>4</sup>;
- (iv) incurs at least S\$200,000 local business spending<sup>5</sup> in Singapore in each basis period relating to any year of assessment (Note 1);
- (v) will not change its investment objective/strategy after being approved for the ETF Scheme<sup>6</sup> (Note 1);
- (vi) does not concurrently enjoy other tax incentive schemes<sup>7</sup>; and
- (vii) meets such other conditions as specified in the letter of approval issued by the MAS.

---

<sup>2</sup> An entity is a member of a group of entities if its assets, liabilities, income, expenses and cash flows are:

- a) included on a line-by-line basis in the consolidated financial statements of the parent entity of the group; or
- b) excluded from the said consolidated financial statements of the parent entity of the group solely on size or materiality grounds or on the grounds that the entity is held for sale.

“Consolidated financial statements” means financial statements prepared by an entity in accordance with generally accepted accounting standards, in which the assets, liabilities, income, expenses and cash flows of the entity, and the entities in which it has a controlling interest, are presented as those of a single economic unit.

“Controlling interest” in relation to an entity, means an equity interest in the entity such that the holder of the interest is required by the law or a regulatory body of the jurisdiction it is resident in, to consolidate in its financial statements the assets, liabilities, income, expenses and cash flows of the entity on a line-by-line basis in accordance with generally accepted standards.

<sup>3</sup> A group is a relevant group if:

- a) the entities of the group are not all incorporated, registered or established in a single jurisdiction; or
- b) any entity of the group has a place of business in more than one jurisdiction.

<sup>4</sup> “Investment professionals” refer to persons who are earning a basic salary of more than S\$3,500 per month and must be engaging substantially in the qualifying activity. Examples include portfolio managers, research analysts and traders. The individual must also be a Singapore tax resident to be considered an investment professional.

<sup>5</sup> Local business spending refers to operating expenses, recognised based on accounting principles, that are paid to contracting parties in Singapore, including but not limited to remuneration, fund management fees and other operating costs. Where the first and last basis period of the Fund is not a full financial year, pro-rata of the local business spending will be allowed.

<sup>6</sup> The Fund may request a change in investment objective/strategy provided it is for bona fide commercial purposes and the change is approved by the MAS before the effective date for the change in strategy.

<sup>7</sup> For the purpose of this condition, any trust which enjoys or used to enjoy an approved pension or approved provident fund status under section 5 of the ITA will not be deemed as having met this condition.

## Note 1: Revisions to the ETF Scheme with effect from 1 January 2025

The MAS issued a circular titled “Tax Incentive Schemes for Funds” (Circular No.: FDD Cir 10/2024) dated 1 October 2024 (the “Circular”) providing details of the revisions to the ETF Scheme. Subject to the transitional arrangements as outlined below, conditions (ii), (iv) and (vi) will be revised with effect from 1 January 2025. The Fund will have to ensure that it:

- (a) meets the minimum fund size of S\$50 million of AUM invested in designated investments (“DI”)<sup>8</sup> at the end of each financial year;
- (b) will incur the minimum amount of local business spending that corresponds to the AUM in DI as at the end of each financial year as follows:

<b>AUM in DI as at end of the financial year (S\$)</b>	<b>Minimum local business spending for the financial year (S\$)</b>
AUM < 250 million	200,000
250 million ≤ AUM < 2 billion	300,000
AUM ≥ 2 billion	500,000

- (c) the condition to invest within the MAS approved investment objective or strategy will be removed with effect from 1 January 2025. However, the Fund’s investment objective / strategy should be within the scope of what the Fund is mandated to do via this prospectus, and the Fund still needs to inform the MAS of any change of investment objective / strategy.

A grace period will be granted for the Fund given that its existing award commenced prior to 1 January 2025 and the Fund will only have to meet the above revised conditions in (a) and (b) related to AUM in DI and local business spending criteria in each financial year with effect from the financial year ending in 2027 (YA 2028). During the grace period for financial years ending in 2025 and 2026, the Fund will have to continue to meet the S\$200,000 local business spending as set out in above under condition (iv) in order to continue to avail itself of the 13U tax exemption.

All the above conditions have to be satisfied throughout the life of the Fund. In the event that the Fund fails to satisfy the specified conditions for any basis period, the Fund will not enjoy the tax exemption on “specified income” derived from “designated investments” for the basis period concerned. The Fund can, however, enjoy the tax exemption in any subsequent period during the life of the Fund, if the specified conditions are satisfied in that subsequent period.

The Singapore Government will review the ETF Scheme prior to its expiry on 31 December 2029 to assess its relevance and determine whether it will be discontinued, extended and/or refined. Notwithstanding this, the Fund can continue to enjoy the tax exemption after 31 December 2029, subject to it meeting the ETF Scheme’s conditions.

The key aspects relating to the taxation of an ETF Scheme Fund are summarised below.

### **A. Trust level**

Under the ETF Scheme, the Fund will be granted tax exemption on the “specified income” derived from “designated investments”.

“Specified income”<sup>9</sup> refers to all income and gains derived on or after 19 February 2022 from “designated investments” except the following:

- a) distributions made by a trustee of a real estate investment trust<sup>10</sup> that is listed on the Singapore Exchange;
- b) distributions made by a trustee of a trust who is resident of Singapore or a permanent establishment in Singapore, other than a trust that enjoys tax exemption under sections 13D, 13F, 13L or 13U of the ITA;

<sup>8</sup> With effect from 1 January 2025, the AUM in DI refers to net amount of DI recognised as assets in the statement of financial position in accordance with relevant accounting standards. The net amount of DI means the amount of DI recognised as assets (e.g. derivatives recognised as asset) net of DI recognised as liabilities (e.g. derivatives recognised as liability). For avoidance of doubt, loans (including shareholder loans) taken to finance DI need not be taken into account as a liability in arriving at the gross asset value of the fund in DI.

<sup>9</sup> The “specified income” from “designated investments” lists have been updated based on the circular entitled “Tax Incentive Schemes for Funds” (Circular No.: FDD Cir 10/2024) issued by the MAS on 1 October 2024. Please note that these changes have not been legislated at this juncture.

<sup>10</sup> As defined in section 43(10) of the ITA, real estate investment trust means a trust constituted as a collective investment scheme authorised under section 286 of the Securities and Futures Act 2001 and listed on the Singapore Exchange, and that invests or proposes to invest in immovable property and immovable property-related assets.

- c) income or gain derived or deemed to be derived from Singapore from a publicly- traded partnership or non-publicly traded partnership, where tax is paid or payable in Singapore on such income of the partnership by deduction or otherwise; and
- d) income or gain derived or deemed to be derived from Singapore from a limited liability company, where tax is paid or payable in Singapore on such income of the limited liability company by deduction or otherwise.

“Designated investments”<sup>9</sup> in relation to income derived on or after 19 February 2022 includes, amongst others, the following:

- (a) stocks and shares of any company, other than a company that is –
  - (i) in the business of trading or holding of Singapore immovable properties (other than the business of property development); and
  - (ii) not listed on a stock exchange in Singapore or elsewhere;
- (b) units in real estate investment trusts and exchange traded funds constituted in the form of trusts and other securities (not already covered in other sub-paragraphs of the designated investments list) but excludes any securities issued by any unlisted company that is in the business of trading or holding of Singapore immovable properties (other than one that is in the business of property development); and
- (c) deposits held with any financial institution.

Unless otherwise exempt from tax, any income or gains derived by the Fund that do not fall within the above list of “specified income” from “designated investments” will generally be subject to tax at the prevailing corporate tax rate (currently, 17%).

#### Implementation of Pillar Two Top-Up Taxes in Singapore

Singapore has implemented two components of the Global Anti-Base Erosion Pillar Two Rules promulgated by the OECD/G20 Inclusive Framework to address base erosion and profit shifting by multinational enterprises (MNEs) – being the Income Inclusion Rule (IIR) and Domestic Top-up Tax (DTT).

Very broadly, the MMT regime came into operation on 1 January 2025 and applies to MNE groups with consolidated revenues of EUR 750 million or more (each an “in-scope MNE group”). Under this regime, a multinational enterprise top-up tax (“MTT”), the local equivalent of IIR, applies to in-scope MNE groups in respect of any low-taxed profits of their group entities that are operating outside Singapore; whereas the DTT applies to in-scope MNE groups in respect of any low-taxed profits of their group entities that are operating in Singapore. Collectively, they ensure that in-scope MNE groups pay tax at an effective rate of at least 15% on profits (as defined) earned in jurisdictions in which they operate.

Certain exclusions from the MMT regime apply to investment funds (as defined) that are ultimate parent entities, as well as investment entities (as defined). Investors should consult its own tax adviser on the MTT and DTT implications (if any) from its holdings in the Fund.

#### **B. Holders’ level – Distributions**

Distributions made by the Fund to all Holders out of income derived under the ETF Scheme should not be subject to Singapore withholding tax or further Singapore income tax.

#### **C. Holders’ level – Disposal of Units or dissolution of Fund**

There is no capital gains tax in Singapore (other than in respect of gains on sale of foreign assets under section 10L discussed above and under the MMT regime. Section 10L should not apply in the case of disposal of the Units, being equity interests in a trust fund with a Singapore trustee where the equity interests are registered in Singapore. Accordingly, any gains derived from a sale of the Units which are in the nature of capital should not be taxable in Singapore or be subject to tax under section 10L.

However, any gains derived by any person from the sale of Units may be taxable in Singapore if they are derived (1) in the course of a trade or business carried on in Singapore, or (2) in the course of a trade or business carried on outside Singapore and received or construed to be received in Singapore (i.e. foreign income). That said, non-resident individuals and foreign businesses that are not operating

in or from Singapore can remit their foreign income to Singapore without being taxed on the income / gain.

As the tax treatment depends on the particular situation of the Holders, the Holders should consult their own tax advisers with regard to the tax consequences arising from distribution made by the Fund and gains arising from disposal of the Units.

#### **D. Trust level – Goods and Services Tax**

The Fund may incur Singapore Goods and Services Tax (“GST”) (currently, 9%) on its expenses.

Should there be GST incurred, the Fund may be allowed to claim the amount of GST incurred from the IRAS if it meets the qualifying conditions through a GST remission scheme which has been extended to 31 December 2029. The amount of GST to be claimed is based on a fixed percentage which is revised annually. The fixed recovery rates for 2025 and 2026 are 91% and 89% respectively.

The Manager expects to be able to fulfil all of the ETF Scheme conditions for the Fund to qualify for the GST remission.

Should the Fund not meet the qualifying conditions, the GST incurred (if any) will become an additional cost to the Fund.

From 1 January 2020, GST will be levied on business-to-business imported services by way of reverse charge. A prescribed fund is liable for GST registration if it imports or expects to import services exceeding SGD 1 million in a 12-month period and is not entitled to full input tax credit. Where it is registered for GST, the prescribed fund can continue to claim the GST incurred based on the fixed recovery rate.

## **II. Holders’ level - Malaysia**

Our comments below cover the general taxation of income for Holders subject to the provisions of the Malaysian Income Tax Act 1967.

We hereby confirm that the statements made in this report correctly reflect our understanding of the tax position under current Malaysian tax legislation. Our comments below are general in nature and cover taxation in the context of Malaysian tax legislation only and do not cover foreign tax legislation. The comments do not represent specific tax advice to any investors and we recommend that investors obtain independent advice on the tax issues associated with their investments in the Fund.

### **1. General**

Distributions derived from the Fund (which is constituted outside Malaysia, discretionarily managed outside Malaysia and has a trustee tax resident outside Malaysia) and received in Malaysia are generally treated as foreign-sourced income from overseas investments.

The exemption of foreign-sourced income received in Malaysia is only applicable to a person who is a non-resident and some Malaysian residents who may have received specific tax incentives (see below).

The taxation of foreign sourced income will depend on the tax profile of the specific resident Holder.

#### **(a) Malaysian Corporate investors**

Foreign-sourced income remitted to Malaysia will be subject to Malaysian income tax at the prevailing rate for Malaysian corporate residents, currently at 24%.

Companies with paid-up capital in respect of ordinary shares or Limited Liability Partnerships with capital contributions below MYR 2.5 million\* at the beginning of the basis period are taxed at the following scaled rates:

<b>Chargeable income</b>	<b>Income tax rate</b>
The first MYR 150,000	15%
The next MYR 450,000	17%
In excess of MYR 600,000	24%

\* *The above shall not apply if more than –*

- (a) 50 per cent of the paid-up capital in respect of ordinary shares of the company is directly or indirectly owned by a related company;
- (b) 50 per cent of the paid-up capital in respect of ordinary shares of the related company is directly or indirectly owned by the first mentioned company;
- (c) 50 per cent of the paid-up capital in respect of ordinary shares of the first mentioned company and the related company is directly or indirectly owned by another company.

“Related company” means a company which has a paid up capital in respect of ordinary shares of more than MYR 2.5 million at the beginning of the basis period for a YA.

(b) Malaysian Individuals

Individual and other non-corporate Holders who are tax resident in Malaysia will be subject to income tax at graduated rates ranging from 0% to 30%.

All types of foreign sourced income received by resident individuals in Malaysia (except resident individuals which carry on business through a partnership), are exempted till 31 December 2036.

(c) Co-operative societies and trust bodies

Pursuant to Budget 2026 announcement on 10 October 2025, effective from 1 January 2027, dividends received by co-operative societies and trust bodies will be exempted from 1 January 2027 to 31 December 2030.

The above exemptions are available subject to certain conditions:-

1. “Subject to foreign tax” and “minimum 15% foreign tax rate” conditions; <b>or</b>	<ul style="list-style-type: none"> <li>• Subject to tax of a similar character to income tax under the law of the territory where the income arises; and</li> <li>• The minimum headline income tax rate territory where the income arises is not less than 15%.</li> </ul>
2. Economic substance requirements.	<ul style="list-style-type: none"> <li>• Employ adequate number of employees with necessary qualifications to carry out the specified economic activities in Malaysia; and</li> <li>• Incur adequate amount of operating expenditure for carrying out the specified economic activities in Malaysia.</li> </ul>

Distribution from the Fund is unlikely to be considered as dividends. As such, any distributions from the Fund received by resident companies and limited liability partnerships, cooperative societies and trust bodies in Malaysia should be taxable.

Certain Holders who are financial institutions or investment dealers will continue to be subject to Malaysian income tax on income received from foreign investments since such income will not be considered to be foreign source.

Such income from foreign investments may be subject to taxes or withholding taxes in the specific foreign country. Subject to meeting the relevant prescribed requirements, the Holders in Malaysia are entitled for double taxation relief on any foreign tax suffered on the income in respect of overseas investment.

2. Income distributions in the form of new units from the Fund

The Holders receiving their income distribution by way of investment in the form of new units from the Fund will be regarded as having purchased the new units out of their income distribution after tax. As such, the Holders will similarly be seen as receiving foreign sourced income (taxable or exempted depending on the Malaysian Holders’ tax profiles).

3. Gains on sale of foreign investments

**Foreign sourced capital gains**

The scope of taxable foreign-sourced income received in Malaysia will include gains from disposal of capital assets from outside Malaysia. The foreign gains remitted to Malaysia will be subject to the prevailing income tax rates (currently at 24% for Malaysian corporate residents).

Such capital gains from foreign investments may be subject to taxes or withholding taxes in the specific foreign country. Subject to meeting the relevant prescribed requirements, the Holders in Malaysia are entitled for double taxation relief on any foreign tax suffered on the income in respect of overseas investment.

The Income Tax (Exemption) (No. 3) Order 2024 provides the exemption from capital gains tax (“CGT”) from 1 January 2024 to 31 December 2026 on gains from disposal of foreign capital assets received by companies,

limited liability partnerships (LLPs), trust bodies and co-operative societies resident in Malaysia which meet the economic substance requirements. Based on the recent Budget 2026 announcement on 10 October 2025, this exemption will be extended to 31 December 2030.

The gains are eligible for tax exemption subject to meeting economic substance requirements (i.e. “adequate number” of employees with the necessary qualifications to carry out the specific economic activities in Malaysia are employed and incurred an “adequate” amount of operating expenditure to carry out the specific economic activities in Malaysia).

Where the Holder is a Malaysian unit-trust, there may be exemption from income tax on foreign-sourced capital gains. The exemption from income tax on foreign-sourced income will be until 31 December 2030 (based on Budget 2026 announcement).

The exemption is subject to:

- the foreign source income must have been subject to a tax of a similar character to income tax in the territory where the income arises and the highest rate of such tax must be at least 15%; and
- the management company of the unit trust must employ an adequate number of employees in Malaysia and incur sufficient operating expenses locally.

#### 4. Other taxes

Any person in Malaysia (whether or not registered for service tax) acquires taxable services from any person outside of Malaysia, such acquisition will be subject to service tax (imported taxable services). As such, where there are any services charged to Holders, it should be noted that the service recipient is liable to determine and account for the service tax on the value of the imported taxable service.

Foreign service providers who provide digital services to customers in Malaysia are required to register for service tax in Malaysia and charge digital service tax on such service.

Yours faithfully

For and on behalf of PricewaterhouseCoopers Singapore Pte. Ltd.

## 18. UNIT TRUST LOAN FINANCING RISK DISCLOSURE STATEMENT

Investing in a unit trust fund with borrowed money is more risky than investing with your own savings.

You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financial circumstances. You should be aware of the risks, which would include the following:

1. The higher the margin of financing (that is, the amount of money you borrow for every ringgit of your own money which you put in as deposit or down payment), the greater the loss or gain on your investment.
2. You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
3. If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the time prescribed, your units may be sold towards the settlement of your loan.
4. Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are experienced. Whether you eventually realise a gain or loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.

**This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the terms and conditions before you decide to take a loan. If you are in doubt about any aspect of this risk disclosure statement or the terms of the loan financing, you should consult the institution offering the loan.**
